Project Scrapper is a casual first-person shooter with one caveat: players don't have weapons. Armed only with gravity rivets and anti-gravity. They can fly away from the "robber" to the wall and thus become invisible. If they get on the "robber", they will begin to attract him to themselves (or repel him). "Robber" is a kind of robot that can perform a variety of movements and use any weapons known in the game to destroy the enemy. The player's task is to collect as many coins as possible.
